*I saw the invention for the switch that is "kosher" for Shabbos and was astonished, and I bless Rav Menashe Kalati shlita that he should merit to distribute his invention and save with it many of our brothers from desecrating Shabbos, heaven forbid. And may Hashem bless him with "Nachlas Yaakov" and he should merit "a day that is completely Shabbos" and "the world should be filled with wisdom" speedily and in our days, Amen.*
